The 9th Biomedical Engineering International Conference (BMEiCON2016) is intended to provide an international forum where researchers, practitioners, and professionals interested in the advances in, and applications of, biomedical engineering exchange the latest research, results, and ideas in these areas through presentation and discussion.

The BMEiCON2016 will be held in Luang Prabang, Laos, during December 7-9, 2016.

The organizing committee is pleased to invite all engineers, physicians, scientists, technicians, and technologists to attend and help shape the future of biomedical technology. The topics for regular sessions include, but are not limited to, the followings:

- Biomedical signal processing
- Biomedical imaging and image processing
- Bioinstrumentation
- Bio-robotics and biomechanics
- Biosensors and Biomaterials
- Cardiovascular and respiratory systems engineering
- Cellular and Tissue Engineering
- Healthcare information systems
- Human mechanic/computer interface
- Medical device design
- Neural and rehabilitation engineering
- Technology commercialization, industry, education, and society
- Telemedicine
- Therapeutic and diagnostics systems
- Recent advancements in biomedical engineering

Submission of Papers

Prospective authors are invited to submit full-length papers, including figures, tables, and references, via our website at <http://www.bmeicon.org/bmeicon2016/>. All papers will be peer reviewed and handled electronically. All papers submitted must be previously unpublished and may not be considered for publication elsewhere at any time during the review period. Any accepted paper included in the final program is expected to have at least one author or qualified proxy attend and present the paper at the conference. For additional information and submission guidelines, please visit our website at <http://www.bmeicon.org/bmeicon2016/>.
